ABC o EU i Natura 2000
WWF in the Mediterranean
Portugal

- Restoration of forest landscapes
- FSC certification
- Iberian Forest Trade Network
- Energy use/footprint
Morocco

- Forest restoration & economics
- Barbary Macaque
- Payment for water (PES)
Algeria

- Community participation in cork-oak forest management (El Kala)

- National strategy for wetlands conservation

- New Marine Protected Area
Tunisia

- RAMSAR wetlands conservation
- New Marine and coastal protected area at Cap Negro/Cap Serrat
- Forest fires & climate change
Lebanon

- Forest conservation and community development in Chouf (with AFDC)
  - Fire
  - Grazing
  - Pine nut, grape, honey production
  - Environmental education
Dinaric Arc

- Protected Areas
- Trans-boundary collaboration
- EU Accession
- Water Infrastructures
Dinaric Arc – Protected Areas

- High level government commitments
- PA management – marine and terrestrial
- PA financing
- Scientific analysis
BIG WIN FOR DINARIC ARC

Environmental ministers of six governments signed a joint commitment and national-level commitments for delivering on the CBD PoWPA

- 13 new areas to be established (7 trans-boundary)
- Review of PA management effectiveness & financing
- Management plans (terrestrial and marine)
- Exchange of information and collaboration
Montenegro commitments

• Supporting the establishment of the Prokletije National Park
• Examining possibilities for the establishment of Transboundary Protected Area (TBPA) Durmitor National Park (Montenegro) - Sutjeska National Park (Bosnia and Herzegovina)
• Development of an institutional base for implementation of the CBD and capacity building
• Preparation of necessary steps for the development of NATURA 2000 network in Montenegro
• Development of sustainability indicators for Durmitor National Park
• Establishment of marine protected areas (Island Katici, Stari Ulcinj and Platamuni)
• Establishment of basic functions of the Tara River Biosphere Reserve
Trans-boundary collaboration

Big Win for Dinaric Arc
Legend
- Enlargement of existing and new protected areas
- Management and financing plans
- Transboundary cooperation
Trans-boundary collaboration
Trans-boundary collaboration
Trans-boundary collaboration
Trans-boundary collaboration
Trans-boundary collaboration
Trans-boundary collaboration
Marine PAs

- MEDPAN South
  - Capacity building Program for MPA Managers
  - Pilot projects in Algeria, Tunisia, Croatia, Turkey and Libya
New coalitions for biodiversity: Developing public-private partnerships within protected areas in five countries of the Dinaric Arc

Project results

• Six modern, transparent, multi-stakeholder business plans for pilot protected areas in five countries of the Western Balkans completed and published in collaboration with environmental authorities.

• At least one model public-private partnership established in each of the protected areas based on the business plans.

• Five national studies proposing solutions to key policy problems which hamper broader public participation and private initiative in the management of protected areas are completed, published and proposed solutions promoted through meetings and other lobbying activities.
Balkans - EU Accession

• Establishment of N2000 marine network in Croatia

• N2000/WFD in BiH

• N2000 NGO networks in Serbia, Montenegro and Albania

• Policy and technical support
Balkans – water infrastructures

• Dialogue with civil society, governments, dam builders, investors & operators

• Campaigns

• Scientific analysis

• Policy development support
Climate change

- International conference on climate change adaptation in the conservation and management of Mediterranean forests (2008)

- Earth Hour

- Med Solar Plan
Fisheries Programme

• Bluefin tuna

• Making Trawling Sustainable

• Selectivity and Bycatch

• Small Scale Fisheries in the Mediterranean
Fisheries Programme

- Policy and advocacy
- Field Work
- Markets/ sustainable consumption
Tourism

• Guidelines for investors (Tunisia, Morocco, Algeria)

• Libya – monitoring of “Green Mountains” plan

• Valorization of tourism values of PAs (BiH)

• Sustainable tourism schools
